INCIDENT Weather Forecast

FORECAST NO: 3 NAME OF FIRE: Tulley Fire
PREDICTION FOR: Saturday Day/night SHIFT UNIT: CA-HUU
SHIFT DATE: Aug 27 0700 – Aug 28 0700 SIGNED: *Mike Smith*
TIME AND DATE Incident Meteorologist
FORECAST ISSUED: 2000 August 26, 2016

WEATHER DISCUSSION: Weak high pressure over the state will bring warm and dry conditions and fair skies to the fire area over the weekend. A weak trough passing well to the north will keep temperatures from warming over the weekend and in fact Saturday and Sunday should see a slight cooling trend. The ridgetops and higher elevations will see typical onshore breezes in the afternoons while the lower slopes of the fire should see primarily terrain driven winds. Nighttime winds over the weekend should be fairly light all areas. The next in a series of low pressure troughs will approach the coast early next week. This trough should be strong enough to bring more significant cooling to the fire area on Monday and Tuesday with significantly higher humidity. The onshore sea breeze will see a slight increase. This combined with a deepening marine layer could bring some coastal stratus into the fire area Monday night or early Tuesday. Cool breezy conditions are expected to continue through the end of the week. Light precipitation still looks possible towards the end of the week.

WEATHER FORECAST:

WEATHER: Mostly Sunny.

TEMPERATURES: High temperatures 83 to 87.

HUMIDITY: Minimum humidity 26-32%.

20 FT WINDS:

RIDGETOP - (1000-2000 feet above the fire) Light and variable to 4 mph in the morning hours becoming southwest to west 5-11 mph after 1000 with occasional gusts to 18 mph in the afternoon.

SLOPE/VALLEY - Downslope 1-4 through about 1000. Then upslope to upcanyon 3-5 gusts to 11 mph. Strongest winds in the late afternoon.

STABILITY/INVERSION: Fairly stable conditions. Marine layer about 2000 feet.

OUTLOOK FOR Saturday Night: Mostly clear. Minimum temperatures on the fire 50 to 54 lower slopes to around 60 upper slopes. Good RH recovery at above 90% canyon bottoms and 70 to 80% upper slopes. Winds on the slopes, upslope to upcanyon 3-5 gusts to 11 mph becoming downslope 1-4 mph after about 2200. Ridgetops above the fire...west to northwest 5-11 mph gusts to 18 mph evening hours becoming light and variable after about 2200.

OUTLOOK FOR Sunday: Mostly Sunny. Maximum temperatures 83-87. Minimum humidity 25-32%. Slope winds downslope 1-4 mph becoming upslope to upcanyon 3-5 gusts to 11 mph after about 1000. Ridge winds above the fire, light and variable in the morning becoming southwest to west 6-12 mph with gusts to 20 mph in the afternoon.

EXTENDED FORECAST: Monday and Tuesday. Fair skies except patchy coastal stratus during the morning hours. A little cooler each day with highs in the low to mid 80s. Minimum afternoon humidity 30-40% or higher. Breezy west winds in the afternoons on the ridgetops 6-12 mph with gusts to 20 mph each day. Mainly terrain driven winds on the slopes.

EXTRA INFORMATION: Sunrise Saturday 6:37 Sunset Saturday 7:55

CAL FIRE INCIDENT MANAGEMENT TEAM 3

SAFETY MESSAGE	1. INCIDENT NAME: TULLEY	2. DATE PREPARED: August 26, 2016	3. TIME PREPARED: 10:00
	4. PREPARED BY: David Brockman SOF1(T)	5. LEADER NAME: David Sargenti SOF1	6. OPERATIONAL PERIOD: 8-27-2016 0700 TO 8-28-2016 0700

SAFETY MESSAGE

per-ser-ver-ance

1. steady persistence in a course of action, a purpose, a state, especially in spite of difficulties, obstacles, or discouragement.

- Roads are still dangerous in areas and dusty...Drive Defensively and SLOW DOWN!
- There's no glory in getting hurt during mop up, wear all PPE and pace yourself through the shift.
- HEADS UP!!! Look out for falling rocks and boulders.
- Be aware of the increase in civilian presence with the weekend.
- Trees are weakened due to fire activity. Look Up, Down, and Around for tree hazards.
- While conducting mop up operations beware of stump holes, trip hazards and uneven terrain.
- Establish COMMUNICATIONS and report any coverage issues to your line supervisor.
- Document 2:1 rest and hydration on your ICS214's. Take frequent breaks!!!
- This is day 5 of the incident, keep your safety and the safety of your crews as the top priority.

DANGER

SLOW DOWN

CAL FIRE INCIDENT MANAGEMENT TEAM 3 SOF1 David Sargenti

INCIDENT RISK ANALYSIS ICS 215A

Branch	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS/WARNINGS/REMEDIES
ALL	FIRE AND DROUGHT WEAKENED TREES/SNAG HAZARDS	<ul style="list-style-type: none"> Follow Hazard Tree Safety Guidelines (IRPG p. 22). Many of the trees within the fire area and along roadways are stressed due to prolonged drought conditions and extended burn times.
ALL	DRIVING HAZARDS	<ul style="list-style-type: none"> Drive defensively! Expect the unexpected. Watch for distracted drivers. Increase following distances. Slow down. Watch for debris on the roadways.
ALL	FATIGUE	<ul style="list-style-type: none"> Be alert for signs of fatigue and take breaks as necessary. Adhere to the 2 to 1 work rest cycle. Monitor incoming resources for level of fatigue.
ALL	PERSONAL SAFETY	<ul style="list-style-type: none"> All personnel are responsible for their personal safety. Ensure that personal items and work related equipment are secure. Immediately report any suspicious activity to your supervisor.
ALL	HYDRATION	<ul style="list-style-type: none"> Drinking water before, during and after each shift. Be alert for signs of heat stress in yourself and others.
ALL	HEAT RELATED ILLNESS	<ul style="list-style-type: none"> Review "Specific Treatments" section of the IRPG (pg 103) for heat illnesses signs and treatment. Report any and all injuries to your supervisor.
ALL	FIRE WEATHER	<ul style="list-style-type: none"> Ensure LCES in place prior to engagement (IRPG p. 7). Be thoroughly familiar with weather predications and monitor conditions on the ground for changes. Watch for second burn period around 0000-0300.
ALL	ACCOUNTABILITY	<ul style="list-style-type: none"> Be sure to check in with Branch/Division when working in their area of responsibility.
ALL	POWER LINES	<ul style="list-style-type: none"> Follow Power Line safety guidelines (IRPG pg.24). Treat all downed power lines as energized.
ALL	ROLLING MATERIAL	<ul style="list-style-type: none"> With the steep terrain watch for rolling material when personnel are working around/above you. Call out rolling material.
ALL	COMMUNICATIONS	<ul style="list-style-type: none"> Steep terrain may limit communications. Use human repeaters as needed.
ALL	BRIEFINGS	<ul style="list-style-type: none"> Make sure everyone gets a briefing on the plan for the day (inside rear cover IRPG).
C/K/X	FIRING	<ul style="list-style-type: none"> Conduct thorough briefing for all personnel. Utilize Risk Management Process (IRPG p.1) PPE to be worn by all personnel. Establish LCES prior to implementing burning operations (IRPG p. 6).
A/Y	AIRCRAFT AWARENESS	<ul style="list-style-type: none"> When working with aircraft notify them of any known utility lines.
W/X/Y	MOP UP	<ul style="list-style-type: none"> Do not get complacent during mop up. Wear ALL appropriate safety gear as required.
CAMP	TSUNAMI EVACUATION	<ul style="list-style-type: none"> Base camp is within the County's Tsunami Zone. The potential for inundation is present if a tsunami was to occur. Evacuation route is east up Bald Hills Road.

8. MEDICAL EMERGENCY PROCEDURES

LINE EMERGENCY: Crew Supervisor to contact Division Supervisor with patient complaint/condition and location.

- Division Supervisor contacts:
 - Line EMT / PM
 - Communications Unit
- Communication Unit will clear command channel for emergency traffic
- Communications will switch all emergency traffic to CALCORD
- Communications Unit contacts:
 - Medical Unit
 - Safety
 - Operations
- Division Supervisor will run medical emergency on CALCORD.
- Medical Unit will:
 1. Dispatch air/ground ambulance to as appropriate.
 2. If necessary, after patient pickup, dispatch ambulance to helibase for transportation.
 3. Notify receiving hospital of injury status.

CAMP EMERGENCY: Contact Medical Unit with patient complaint/condition and location. Medical Staff will respond to stabilize incident.

INJURY REPORTING PROCEDURES

NATURE OF INJURY _____

LOCATION OF PATIENT _____

TRANSPORTATION REQUESTED BY: AIR _____ GROUND _____

POINT OF PICKUP _____

LAT _____ LONG _____

PATIENT UNIT ID _____
REMINDER: DO NOT GIVE PT NAME OVER RADIO
IS AN EMT WITH PATIENT: YES _____ NO _____

AGE _____

SEX: MALE _____ FEMALE _____

ALL EMERGENCIES---Secure the area and identify witnesses for later investigation. Keep an accurate log of events.

TRAINING MESSAGE

The Incident Training Specialist is located in the Check In Tent; Hours of operation are 0600 to 2100 hours. If you are a trainee or have a trainee working with you please stop by to register your training assignment. It is very important that you register early; once you start the demobilization process your records will be locked.

You may also contact us by phone at:

Jim Mobley TNSP 530-941-2129

Matt Seybert TNSP (T) 714-875-4040

Thank you for helping us to help you!!!

DEMOBILIZATION MESSAGE

Tulley Incident

CA-HUU-006956

We appreciate your efforts during this incident and want to make sure that we get you to your next destination safely and efficiently. When we begin demobilization, a Tentative Demobilization List will be posted in several places around base camp, including the briefing area and the eating area. If you are on this list, please adhere to the following:

SHOW UP AT THE DESIGNATED TIME

- Show up at the designate time.
- Do not show up early.
- Do not show up late.

A demobilization schedule has been prepared in careful coordination with all essential demobilization functions. Not following the demobilization schedule can have significant negative impacts on the Demobilization Unit staff and all other resources scheduled for demobilization. We do not want you or any other resources to have unnecessary delays. Please adhere to your scheduled demobilization time.

BE PREPARED FOR A RE-ASSIGNMENT

There are other incidents in the state that are in need of resources. There is a strong possibility that many of the resources released from this incident will be immediately assigned to another one. Please make sure you are properly supplied, rested, and nourished while waiting for your designated demobilization time.

BE THOROUGH AND EFFICIENT

Demobilization begins and ends at the Demobilization Unit. Please follow the instructions given to you when starting the demobilization process. Returning to the Demobilization Unit with a complete and accurate Demobilization Check-Out (ICS-221) form will help prevent any unnecessary delays and ensure you are shown as available for future assignments. Unforeseen delays can occur during the demobilization process, such as mechanical issues discovered during Ground Support. Plan to visit the Time Unit towards the end of the demobilization process in order to provide an accurate accounting of your time.

Complete Information Update Sheet [here](#)

Update

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

409.5

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

Social Media

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well.

MAIL SERVICE – The Information Section can assist you with sending and receiving mail.

In readiness is all

INCIDENT MANAGEMENT TEAM 3

TULLEY INCIDENT FINANCE SECTION MESSAGE

There is a computer dedicated for E-Pay use set up in the Finance Section.

There are federal timekeepers available for all federal employees and federal contract resources.

DIVS / LINE SUPERVISORS: Please make sure hired equipment shift tickets are completed for all private vendors and dropped off in the Time Unit by line supervisors only (DIVS, STAM, STEN, etc.) Shift Ticket Examples are included in this IAP.

PRIVATE VENDORS: Please take copies of your contracts to the Time Unit as soon as possible.

Please report all injuries and suppression damage to the Comp / Claims Unit, no matter how minor.

Please complete water use forms included in the IAP. Only draw water from identified and approved sources. Turn in these forms to Comp/Claims.

Any "off site" feeding charged to the incident must be pre-approved by the Logistics Section and/or Finance Section Chief. The Motel Tech Spec will have information on this.

ROGER RAINES, FSC1

TERRY EASTWOOD, DEP. FSC1

IMT 1 version 1

INCIDENT MANAGEMENT TEAM 3

FIRE SUPPRESSION REPAIR TULLEY INCIDENT: CAHUU-006956

Fire Suppression Repair is the repair of damage caused directly from fire suppression activities, it is not the repair of areas damaged by the fire. We cannot upgrade facilities beyond their pre-fire condition. Any projects too large or complicated to be completed by the Fire Suppression Repair Group shall be turned over to the local Unit or the Comp/ Claims Unit.

Start Early!

Fire Suppression Repair needs should be reported as soon as discovered. To the extent feasible, repair work should start as soon as practical. However, repair activities shall not hamper or conflict with fire suppression actions. When possible, construct waterbreaks (waterbars) on all dozer lines, handlines, and safety zones concurrent with line construction or mop-up operations. Scattered trash shall be collected and deposited at drop points. Police your areas.

Repair Site Inventory:

Field Observers and Fire Suppression Repair Group resources will be traveling throughout the fire looking for repair needs. All fire line resources are asked to contribute any known issues. The Suppression Repair Group will then evaluate each site, develop a specific repair plan, and schedule an appropriate repair with necessary resources.

Infrastructure Damage:

Report the location and type of suppression damage to infrastructure. Common examples of such features include:

- Fences /gates
- Culvert/ Bridge/ Other watercourse crossings
- Water sources
- Utility distribution line; above/below ground.
- Restore barriers on roads previously closed but opened for suppression activities.
- Remove trash and debris, including flagging and signs when no longer needed.
- Miscellaneous damage to residential property

Natural Resource Damage:

This category represents repairing existing problems caused by fire suppression activities (direct effect) and to prevent likely future problems such as accelerated erosion caused by winter rains (indirect effect).

- Construct drivable waterbars on unsurfaced roads.
- Construct waterbars on all dozer and, where needed, hand lines, according to the following Specifications: Waterbreaks shall be cut diagonally with a minimum depth of 6" into existing grade with a 12" berm for a minimum height of 18". Waterbreaks will be installed at a 30-45 degree angle. Outlets shall be open and directed onto least erodible material possible.

Line or Road Gradient (%)	0-25%	>26
Waterbreak Spacing	100	50'

- Remove all berms created by suppression activities unless necessary to divert runoff from a sensitive site.
- Clean culverts and drainage facilities plugged with soil and debris by fire suppression activities.
- All slash, soil, and debris deposited into watercourses shall be removed and stabilized.
- All work within 100 feet of a watercourse, cultural site or other sensitive location shall be performed by hand crews to avoid further damage. This applies to all direct and indirect lines.

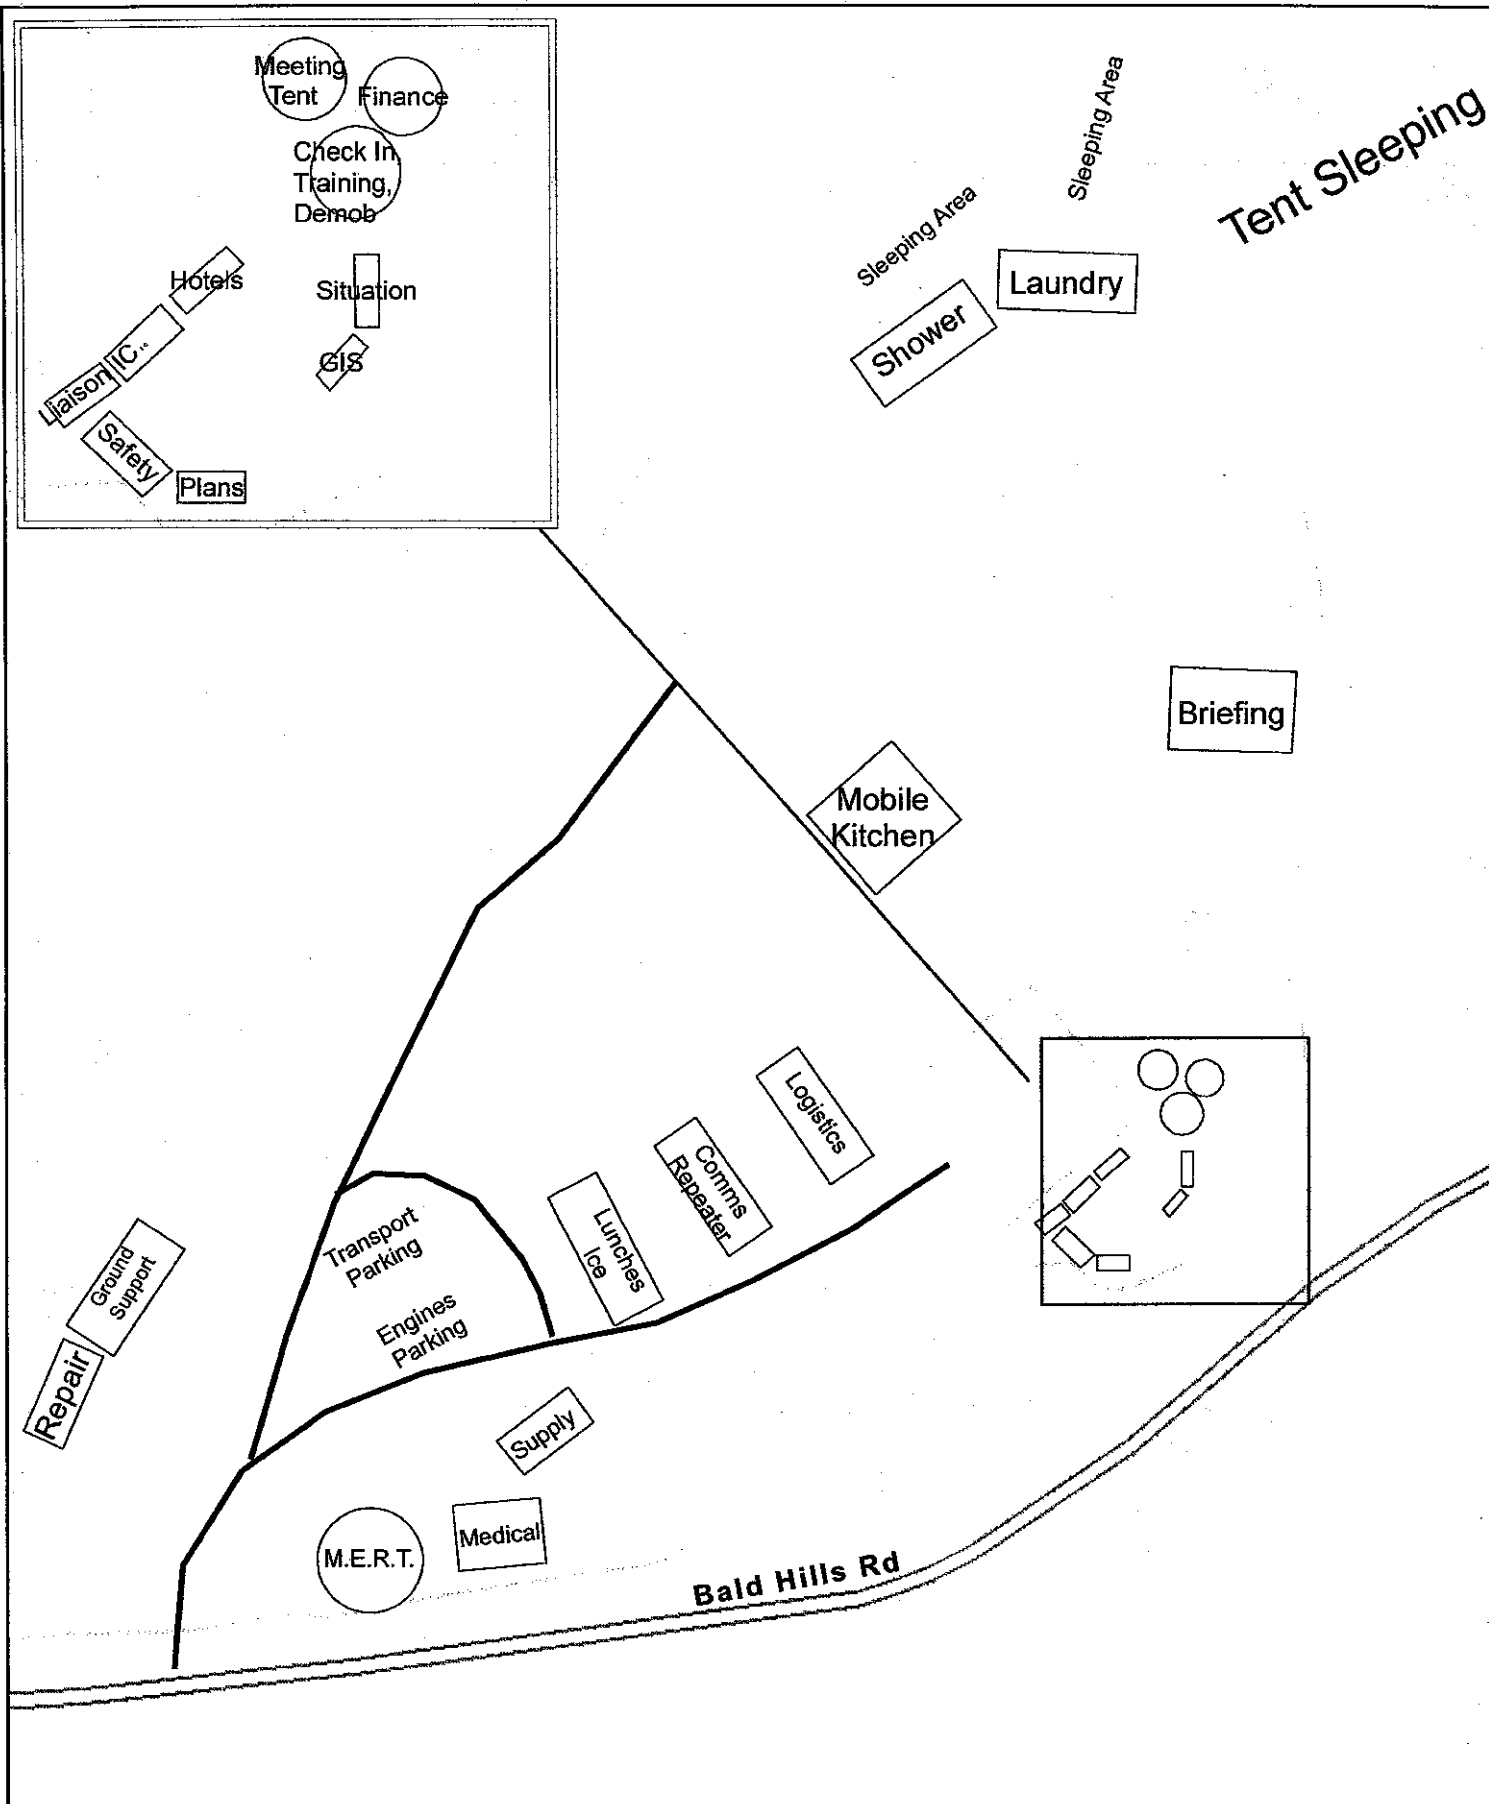

Cultural Site Damage:

Report any disturbance to a known or suspected archaeological/historical site through chain of command to the incident Archaeologist and/or the Fireline Suppression Repair Group immediately. This includes any air tanker drops upon a site. Use least disturbing suppression methods possible unless life safety is at risk. Flag site perimeter for identification. Removing or disturbing any artifact is not permissible.

Comp Claims Issues:

Damaged resources that are too large or complex for the Fireline Suppression Group to handle shall be turned over to Comp Claims for processing. Examples of such issues include damage to pavement, bridges, pipelines, etc.
